

Welcome back!

After a short break, we're excited to reconnect and share the latest updates from our team. This month, we're highlighting WEMC's involvement in the CROSSEU project, exploring a fascinating tech blog on training for climate services, and more. Did you know our [YouTube channel](#) has helpful tutorials on the Teal tool? Stay up to date through our social media channels. We hope you enjoy our summer newsletter!

WEMC's involvement in the CROSSEU project

We are excited to be collaborating with 14 other partners on the EU-funded CROSSEU project. There are eight curated case studies, and WEMC is leading one on evaluating climate impacts on Europe.

Energy and climate C3S webinars

Our sister company, [In Climate Services](#), has recently delivered a webinar series around energy and the climate. If you missed them don't worry, watch the [event recordings](#). There will be another one in October, so stay tuned for further information!

ICEM is back!

Our 8th [International Conference for Energy](#) will be held on **2-5 June 2025** near Padua in Italy. This is a great opportunity for meteorologists and energy industry specialists to network and share knowledge. **Did you miss ICEM 2024?** [Watch some interesting interviews](#).
